

Special Tax Notice – Governmental Plan Payments (other than 457 Plans)

This notice explains how you can continue to defer federal income tax on your retirement savings in your Plan and contains important information you will need before you decide how to receive your Plan benefits. This notice does not address any applicable state or local tax rules that may apply.

This notice is provided to you because all or part of the payment that you will soon receive from the Plan may be eligible for rollover by you or your Plan Administrator to an IRA or an eligible employer plan. A rollover is a payment by you or the Plan Administrator of all or part of your benefit to another plan or IRA that allows you to continue to postpone taxation of that benefit until it is paid to you, or in the case of a Roth conversion, to obtain tax-free investment returns. Your payment cannot be rolled over to a SIMPLE IRA or a Coverdell Education Savings Account (formerly known as an education IRA). An “eligible employer plan” includes a plan qualified under section 401(a) of the Internal Revenue Code, including a 401(k) plan, profit-sharing plan, defined benefit plan, stock bonus plan, and money purchase plan; a section 403(a) annuity plan; a section 403(b) tax-sheltered annuity; and an eligible section 457(b) plan maintained by a governmental employer (governmental 457 plan).

An eligible employer plan is not legally required to accept a rollover. Before you decide to roll over your payment to another employer plan, you should find out whether the plan accepts rollovers and, if so, the types of distributions it accepts as a rollover. You should also find out about any documents that are required to be completed before the receiving plan will accept a rollover. Even if a plan accepts rollovers, it might not accept rollovers of certain types of distributions, such as after-tax amounts. If this is the case, and your distribution includes after-tax amounts, you may wish instead to roll your distribution over to a traditional IRA or split your rollover amount between the employer plan in which you will participate and a traditional IRA. If an employer plan accepts your rollover, the plan may restrict subsequent distributions of the rollover amount or may require your spouse’s consent for any subsequent distribution. A subsequent distribution from the plan that accepts your rollover may also be subject to different tax treatment than distributions from this Plan. Before making the rollover, check with the administrator of the plan that is to receive your rollover.

If you have additional questions after reading this notice, you should contact your Plan Administrator at 1-866-446-9377, Option 4.

Summary

There are two ways you may be able to receive a Plan payment that is eligible for rollover:

- A certain type of payment — called a “DIRECT ROLLOVER” — can be made directly to a traditional or Roth IRA that you establish or to an eligible employer plan that will accept it and hold it for your benefit; or
- The payment can be PAID TO YOU.

If you choose a **DIRECT ROLLOVER**:

- You choose whether your payment will be made directly to your IRA (traditional or Roth) or to an eligible employer plan that accepts your rollover. Your payment cannot be rolled over to a SIMPLE IRA or a Coverdell Education Savings Account because these are not traditional or

Roth IRAs. A distribution of non-Roth amounts can be rolled over to an eligible employer plan, to a traditional IRA or, by paying taxes on the non-Roth amounts and converting them to Roth amounts, to a Roth IRA.

- You can roll the payment to a traditional IRA or an eligible employer plan and the taxable portion of your payment will be taxed later when you take it out of the traditional IRA or the eligible employer plan. Depending on the type of plan, the later distribution may be subject to different tax treatment than it would be if you received a taxable distribution from this Plan.
- You can roll the payment to a Roth IRA and later distributions from the Roth IRA (including a distribution of earnings) will not be taxed, provided that the distribution is a “qualified distribution” from the Roth IRA.

If you choose to have a Plan payment that is eligible for rollover **PAID TO YOU**:

- You will receive only 80% of the taxable amount of the payment, because the Plan Administrator is required to withhold 20% of that amount and send it to the IRS as income tax withholding to be credited against your taxes.
- The taxable amount of your payment will be taxed in the current year or in accordance with Plan guidelines unless you roll it over. Under limited circumstances, you may be able to use special tax rules that could reduce the tax you owe. However, if you receive the payment before age 59½, you may have to pay an additional 10% early withdrawal tax. The additional tax would be assessed when you file your 1040 tax return.
- You can roll over all or part of the payment by paying it to your traditional IRA or to an eligible employer plan that accepts your rollover within 60 days after you receive the payment. The amount rolled over will not be taxed until you take it out of the traditional IRA or the eligible employer plan.
- If you want to roll over 100% of the payment to a traditional IRA or an eligible employer plan, **you must find other money to replace the 20% of the taxable portion that was withheld.** If you roll over only the 80% that you received, you will be taxed on the 20% that was withheld and that is not rolled over.

Special options are available to eligible retired public safety officers and are described below under “Payment Paid to You.”

Your Right to Waive the 30-Day Notice Period

Generally, neither a direct rollover nor a payment paid to you can be made from the Plan until at least 30 days after your receipt of this notice. Thus, after receiving this notice, you have at least 30 days to consider whether or not to have your withdrawal directly rolled over. If you do not wish to wait until this 30-day notice period ends before your election is processed, you can waive the notice period by making an affirmative verbal election over the Plan Administrator’s recorded telephone line indicating whether or not you wish to continue with the transaction and waive the waiting period. Your withdrawal will then be processed in accordance with your election as soon as practical after it is received by the Plan Administrator.

More Information

- I. PAYMENTS THAT CAN AND CANNOT BE ROLLED OVER
- II. DIRECT ROLLOVER
- III. PAYMENT PAID TO YOU
- IV. SURVIVING SPOUSES, ALTERNATE PAYEES, AND OTHER BENEFICIARIES

I. PAYMENTS THAT CAN AND CANNOT BE ROLLED OVER

Payments from the Plan may be “eligible rollover distributions.” This means that they can be rolled over to an IRA or to an eligible employer plan that accepts rollovers. Payments from a plan cannot be rolled over to a SIMPLE IRA or a Coverdell Education Savings Account. The portion of a payment (if any) that is drawn from an after-tax contributions account can be rolled over to an IRA or to an eligible employer plan that accepts after-tax rollover contributions. The portion of a payment (if any) that is drawn from other types of accounts can be rolled over to an eligible employer plan, to a traditional IRA, or, if you make a Roth conversion, to a Roth IRA. Your Plan Administrator should be able to tell you what portion of your payment is an eligible rollover distribution.

After-Tax Contributions. If you made after-tax contributions to the Plan, these contributions can be rolled into either a traditional IRA or to certain employer plans that accept rollovers of the after-tax contributions. The following rules apply:

Roll Over Into a Traditional IRA. You can roll over your after-tax contributions to an IRA either directly or indirectly. Your Plan Administrator should be able to tell you how much of your payment is the taxable portion and how much is the after-tax portion. If you roll over after-tax contributions to an IRA, it is your responsibility to keep track of, and report to the Internal Revenue Service on the applicable forms, the amount of these after-tax contributions. This will enable the non-taxable amount of any future distributions from the IRA to be determined. Once you roll over your after-tax contributions to an IRA, those amounts CANNOT later be rolled over to an employer plan.

Roll Over Into an Employer Plan. You can roll over your after-tax contributions to an eligible employer plan using a DIRECT ROLLOVER if the other plan agrees to accept the rollover and provide separate accounting for amounts rolled over, including separate accounting for the after-tax employee contributions and earnings on those contributions. You can roll over after-tax contributions to either a qualified defined contribution or defined benefit plan under Code section 401(a) or a tax-sheltered annuity under Code section 403(b). You cannot roll over after-tax contributions to a governmental 457 plan. If you want to roll over your after-tax contributions to an employer plan that accepts these rollovers, you cannot have the after-tax contributions PAID TO YOU first. You must instruct the Plan Administrator of this Plan to make a DIRECT ROLLOVER on your behalf. Also, you cannot first roll over after-tax contributions to an IRA and then roll over that amount into an employer plan.

Conversion of Non-Roth Amounts by Means of a Rollover Into a Roth IRA. If you roll over a payment to a Roth IRA, a special rule applies under which the amount of the payment rolled over (reduced by any after-tax amounts) will be taxed. However, the 10% additional income tax on early distributions will not apply (unless you take the amount rolled over out of the Roth IRA within 5 years, counting from January 1 of the year of the rollover). A qualified distribution from a Roth IRA is a payment made after you have had a Roth IRA for at least 5 years and (1) you are age 59½ or (2) after your death or disability or (3) as a qualified first-time homebuyer distribution of up to \$10,000. In applying this 5-year rule, you count from January 1 of the year for which your first contribution was made to a Roth IRA. Payments from the Roth IRA that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies). You do not have to take required minimum distributions from a Roth IRA during your lifetime. You cannot roll over a payment from the Plan to a designated Roth account in another employer plan. For more information, see IRS Publication 590, “Individual Retirement Arrangements (IRAs).”

Payments That Cannot Be Rolled Over. The following types of payments cannot be rolled over:

Payments Spread Over Long Periods. You cannot roll over a payment if it is part of a series of equal (or almost equal) payments that are made at least once a year and that will last for (1) your lifetime (or a period measured by your life expectancy), or (2) your lifetime and your beneficiary’s lifetime (or a period measured by your joint life expectancies), or (3) a period of 10 years or more.

Required Minimum Payments. Beginning when you reach age 70½ or retire, whichever is later, a certain portion of your payment cannot be rolled over, because it is a “required minimum payment” that must be paid to you.

The Investment Plan Administrator should be able to tell you if your payment includes amounts that cannot be rolled over.

II. DIRECT ROLLOVER

A **Direct Rollover** is a direct payment of the amount of your Plan benefits to an IRA or an eligible employer plan that will accept it. You can choose a DIRECT ROLLOVER of all or any portion of your payment that is an eligible rollover distribution, as described in Part I above. If your DIRECT ROLLOVER is into a traditional IRA or an eligible employer plan, you are not taxed on any taxable portion of your payment until you later take it out of the traditional IRA or eligible employer plan. If your DIRECT ROLLOVER is into a Roth IRA, you are taxed on the taxable portion of your payment in the conversion to Roth treatment, and if the later distribution from the Roth IRA is a “qualified distribution,” you are not taxed when you take it out of the Roth IRA. In addition, no income tax withholding is required for any taxable portion of your Plan benefits for which you choose a DIRECT ROLLOVER. This Plan might not let you choose a DIRECT ROLLOVER if your distributions for the year are less than \$200. Any eligible rollover distribution that you receive from the Plan that is otherwise non-taxable, and that you wish to roll over to an eligible employer plan, can be rolled over only in a DIRECT ROLLOVER.

Continues

Direct Rollover to a Traditional IRA. You can open an IRA to receive the DIRECT ROLLOVER. If you choose to have your payment made directly to an IRA, contact an IRA sponsor (usually a financial institution) to find out how to have your payment made in a DIRECT ROLLOVER to an IRA at that institution. If you are unsure of how to invest your money, you can temporarily establish an IRA to receive the payment. However, in choosing an IRA, you may wish to make sure that the IRA you choose will allow you to move all or a part of your payment to another IRA at a later date, without penalties or other limitations. (See IRS Publication 590, "Individual Retirement Arrangements (IRAs)," for more information on IRAs, including limits on how often you can roll over between IRAs).

Direct Rollover to a Plan. If you are employed by a new employer that has an eligible employer plan, and you want a DIRECT ROLLOVER to that plan, ask the plan administrator of that plan whether it will accept your rollover. An eligible employer plan is not legally required to accept a rollover. Even if your new employer's plan does not accept a rollover, you can choose a DIRECT ROLLOVER to an IRA. If the employer plan accepts your rollover, the plan may provide restrictions on the circumstances under which you may later receive a distribution of the rollover amount or may require spousal consent to any subsequent distribution. Check with the plan administrator of that plan before making your decision.

Direct Rollover of a Series of Payments. If you receive a payment that can be rolled over to an IRA or an eligible employer plan that will accept it, and it is paid in a series of payments for less than 10 years, your choice to make or not make a DIRECT ROLLOVER for a payment will apply to all later payments in the series until you change your election. You are free to change your election for any later payment in the series.

Change in Tax Treatment Resulting From a DIRECT ROLLOVER. The tax treatment of any payment from the eligible employer plan or traditional IRA receiving your DIRECT ROLLOVER might be different than if you received your benefit in a taxable distribution directly from the Plan. For example, if you were born before January 2, 1936, you might be entitled to 10-year averaging or capital gain treatment, as explained below. However, if you have your benefit rolled over to a section 403(b) tax-sheltered annuity, a governmental 457 plan, or an IRA in a DIRECT ROLLOVER, your benefit will no longer be eligible for that special treatment. See the sections below titled "Additional 10% Tax if You Are Under Age 59½" and "Special Tax Treatment if You Were Born Before January 2, 1936."

Physical Payment of the Direct Rollover. The Investment Plan Administrator does not currently process electronic direct rollovers to other retirement plan providers. A direct rollover is accomplished by making the distribution check payable to the new retirement plan provider for the benefit of the member. This type of distribution still qualifies for the direct rollover provisions outlined above.

III. PAYMENT PAID TO YOU

If your payment can be rolled over (see Part I above) and the payment is PAID TO YOU in cash, it is subject to 20% federal income tax withholding on the taxable portion (state tax withholding may also apply). The payment is taxed in the year you receive it unless, within 60 days, you roll it over to an IRA or an eligible employer plan that accepts rollovers (or unless you are an eligible retired public safety officer who makes the election to pay health care or long-term care premiums, described in this section below). If you do not roll it over, special tax rules may apply.

Income Tax Withholding

Mandatory Withholding. If any portion of your payment can be rolled over under Part I above and you do not elect to make a DIRECT ROLLOVER, the Plan is required by law to withhold 20% of the taxable amount. This amount is sent to the IRS as federal income tax withholding. For example, if you can roll over a taxable payment of \$10,000, only \$8,000 will be paid to you, because the Plan must withhold \$2,000 as income tax. However, when you prepare your income tax return for the year, unless you make a rollover within 60 days (see "Sixty-Day Rollover Option" below), you must report the full \$10,000 as a taxable payment from the Plan. You must report the \$2,000 as tax withheld, and it will be credited against any income tax you owe for the year. There will be no income tax withholding if your payments for the year are less than \$200.

Voluntary Withholding. If any portion of your payment is taxable but cannot be rolled over under Part I above, the mandatory withholding rules described above do not apply. In this case, you can elect not to have withholding apply to that portion. If you do nothing, an amount will be taken out of this portion of your payment for federal income tax withholding. To elect out of withholding, ask the Plan Administrator for the election form and related information.

Sixty-Day Rollover Option. If you receive a payment that can be rolled over under Part I above, you can still decide to roll over all or part of it to an IRA or to an eligible employer plan that accepts rollovers. If you decide to roll over, you must contribute the amount of the payment you received to an IRA or eligible employer plan within 60 days after you receive the payment. The portion of your payment that is rolled over will not be taxed until you take it out of the traditional IRA or the eligible employer plan. This 60-day rollover option is also available for converting to a Roth IRA.

You can roll over up to 100% of your payment that can be rolled over under Part I above, including an amount equal to the 20% of the taxable portion that was withheld. If you choose to roll over 100%, you must find other money within the 60-day period to contribute to the traditional IRA or the eligible employer plan, to replace the 20% that was withheld. On the other hand, if you roll over only the 80% of the taxable portion that you received, you will be taxed on the 20% that was withheld.

Example: The taxable portion of your payment that can be rolled over under Part I above is \$10,000, and you choose to have it PAID TO YOU. You will receive \$8,000, and \$2,000 will be sent to the IRS as income tax withholding. Within 60 days after receiving the \$8,000, you can roll over the entire \$10,000 to an IRA or an eligible employer plan. To do this, you roll over the \$8,000 you received from the Plan, and you will have to find \$2,000 from other sources (your savings, a loan, etc.). In this case, the entire \$10,000 is not taxed until you take it out of the traditional IRA or an eligible employer plan. If you roll over the entire \$10,000, when you file your income tax return you may get a refund of part or all of the \$2,000 withheld.

If, on the other hand, you roll over only \$8,000, the \$2,000 you did not roll over is taxed in the year it was withheld. When you file your income tax return, you may get a refund of part of the \$2,000 withheld. However, any refund is likely to be larger if you roll over the entire \$10,000.

Additional 10% Tax if You Are Under Age 59½. If you receive a payment before you reach age 59½ and you do not roll it over, then, in addition to the regular income tax, you may have to pay an extra tax equal to 10% of the taxable portion of the payment. The additional 10% tax generally does not

Continues

apply to (1) payments that are paid after you separate from service with your employer during or after the year you reach age 55, (2) payments that are paid because you retire due to disability, (3) payments that are paid as equal (or almost equal) payments over your life or life expectancy (or your and your beneficiary's lives or life expectancies), (4) payments that are paid directly to the government to satisfy a federal tax levy, (5) payments that are paid to an alternate payee under a qualified domestic relations order, (6) payments that do not exceed the amount of your deductible medical expenses, or (7) payments from a governmental defined benefit pension plan to a qualified public safety official following separation from service after age 50. See IRS Form 5329 for more information on the additional 10% tax.

The additional 10% tax will not apply to distributions from a governmental 457 plan, except to the extent the distribution is attributable to an amount you rolled over to that plan (adjusted for investment returns) from another type of eligible employer plan or IRA. Any amount rolled over from a governmental 457 plan to another type of eligible employer plan or to an IRA will become subject to the additional 10% tax if it is distributed to you before you reach age 59½, unless one of the exceptions applies.

Special Tax Treatment if You Were Born Before January 2, 1936. If you receive a payment from a plan qualified under section 401(a) or a section 403(a) annuity plan that can be rolled over under Part I and you do not roll it over to a traditional IRA or an eligible employer plan, the payment will be taxed in the year you receive it. However, if the payment qualifies as a "lump-sum distribution," it may be eligible for special tax treatment. A lump-sum distribution is a payment, within 1 year, of your entire balance under the Plan (and certain other similar plans of the employer) that is payable to you after you have reached age 59½ or because you have separated from service with your employer (or, in the case of a self-employed individual, after you have reached age 59½ or have become disabled). For a payment to be treated as a lump-sum distribution, you must have been a participant in the plan for at least 5 years before the year in which you received the distribution. The special tax treatment for lump-sum distributions that may be available to you is described below.

Ten-Year Averaging. If you receive a lump-sum distribution and you were born before January 2, 1936, you can make a one-time election to figure the tax on the payment by using "10-year averaging" (using 1986 tax rates). Ten-year averaging often reduces the tax you owe.

There are other limits on the special tax treatment for lump-sum distributions. For example, you can generally elect this special tax treatment only once in your lifetime, and the election applies to all lump-sum distributions that you receive in that same year. You cannot elect this special tax treatment if you rolled amounts into this Plan from a 403(b) tax-sheltered annuity contract, from a governmental 457 plan, or from an IRA not originally attributable to a qualified employer plan. If you have previously rolled over a distribution from this Plan (or certain other similar plans of the employer), you cannot use this special averaging treatment for later payments from the Plan. If you roll over your payment to an IRA, governmental 457 plan, or 403(b) tax-sheltered annuity, you will not be able to use special tax treatment for later payments from that IRA, plan, or annuity. Also, if you roll over only a portion of your payment to an IRA, governmental 457 plan, or 403(b) tax-sheltered annuity, this special tax treatment is not available for the rest of the payment. See IRS Form 4972 for additional information on lump-sum distributions and how you elect the special tax treatment.

Special Election by Eligible Retired Public Safety Officers.

If you are an "eligible retired public safety officer," you can make an election to exclude up to \$3,000 of your otherwise taxable payment from your gross income, and not be taxed on the amount you exclude, by instead having your payment directly made to the provider of an accident or health insurance plan or a qualified long-term care insurance contract covering you, your spouse, or your dependents. All distributions are combined from all of your eligible retirement plans — section 401(a), 457(b), 403(a) and 403(b) plans — for purposes of the \$3,000 limit. You are an "eligible retired public safety officer" if you separated from service as a public safety officer of the employer maintaining the plan, and your separation from service was due to your disability or attainment of normal retirement age. Contact the Plan Administrator for more information about this special election.

IV. SURVIVING SPOUSES, ALTERNATE PAYEES, AND OTHER BENEFICIARIES

In general, the rules summarized above that apply to payments to employees also apply to payments to surviving spouses of employees and to spouses or former spouses who are "alternate payees." You are an alternate payee if your interest in the Plan results from a "qualified domestic relations order," which is an order issued by a court, usually in connection with a divorce or legal separation.

If you are a surviving spouse or an alternate payee, you can choose to have a payment that can be rolled over, as described in Part I above, paid in a DIRECT ROLLOVER to a traditional or Roth IRA or to an eligible employer plan or paid to you. If you have the payment paid to you, you can keep it or roll it over yourself to a traditional IRA or to an eligible employer plan. Thus, you have the same choices as the employee.

The Plan allows non-spouse beneficiaries to make a DIRECT ROLLOVER of their share of an employee's account.

If you are a surviving spouse, an alternate payee, or another beneficiary, your payment is generally not subject to the additional 10% tax described in Part III above, even if you are younger than age 59½.

If you are a surviving spouse, an alternate payee, or another beneficiary, you may be able to use the special tax treatment for lump-sum distributions and the special rule for payments that include employer stock, as described in Part III above. If you receive a payment because of the employee's death, you may be able to treat the payment as a lump-sum distribution if the employee met the appropriate age requirements, whether or not the employee had 5 years of participation in the Plan.

How to Obtain Additional Information

This notice summarizes only the federal (not state or local) tax rules that might apply to your payment. The rules described above are complex and contain many conditions and exceptions that are not included in this notice. Therefore, you may want to consult with the Plan Administrator, an Ernst & Young financial planner, or a professional tax advisor before you take a payment of your benefits from your Plan. Also, you can find more specific information on the tax treatment of payments from qualified employer plans in IRS Publication 575, "Pension and Annuity Income," and IRS Publication 590, "Individual Retirement Arrangements (IRAs)." These publications are available from your local IRS office, on the IRS's Internet website at irs.gov, or by calling 1-800-TAX-FORMS.
